What is claimed is:

15b1
15.

A cap assembly, comprising:
a container having an opening disposed on a top portion of said container,
said opening covered by a cap positionable in an opened and closed position; and
an extendable straw disposed in an inner side of said opening so that when
said cap is in an opened position, said straw is extended through said opening for use.

A1
16. A cap assembly as set forth in claim 21, said straw further comprising pleats
so that said straw can bend over a base of said scored finger portion.

A3 15b2
20.

A cap assembly as set forth in claim 15, wherein said cap is a scored finger
portion.
